

IT SAYS... I SAY... AND SO

DIRECTIONS FOR COMPLETING THE CHART:

<u>QUESTION</u>	<u>IT SAYS</u>	<u>I SAY</u>	<u>AND SO</u>
<i>Read the question. What is it asking? Jot down the main points.</i>	<i>Find information from the text to help you answer the question.</i>	<i>Consider what you know about the information.</i>	<i>Put together the information from the text with what you know, then answer the question.</i>

<u>QUESTION</u>	<u>IT SAYS</u>	<u>I SAY</u>	<u>AND SO</u>
How does a star form from a nebula?			
A star is twice as massive as the sun. Will its lifespan be longer, shorter, or the same as that of the sun? Explain.			
What is a white dwarf? How is it different from a neutron star?			
Why do some stars become white dwarfs and others become neutron stars or black holes?			
What will happen to the sun when it runs out of fuel? Explain.
