

Review Unit Tracker
Math 8

All learning is standards based – Begin with a standard and practice, practice, practice until you are proficient. Track your progress, set goals and watch yourself grow mathematically!

R.1: I can simplify expressions using order of operations.

- Notes: Watch youtube videos (9/14)
- Google Form Order of Operations (due 9/15, redo due Friday 9/18)
- Order of operations worksheet (due 9/16)
- Review for R.1 (due 9/18)
- Quiz Order of operations (9/21)

R.2: I can perform all operations with rational numbers (whole #, decimals, and fractions)

- Notes: Reminders of Fraction rules (9/16)
- Notes: Using the Calculator with Fractions (9/16)
- Worksheet Operations with fractions and decimals (due 9/17)
- Review for R.2 (due 9/18)
- Quiz Operations with rational numbers (9/21)

R.3: I can solve one-step and two step equations.

- Notes: Inverse operations with solving equations (9/18)
- Worksheet: One-Step equations (due 9/21)
- Notes: Solving two-step equations (9/21)
- Worksheet: Two-Step equations (due 9/22)
- Review equations (due 9/23)

Review Unit test (9/23)

Track your Progress!!!! Before you start take a moment to think about where you think you are with each standard. After grading each assignment and quiz in class color in the tracker with your level of knowledge of the content. Finish with the review and unit test and see how you have grown from the beginning.

Green-Mastered

Yellow-Still needs some work

Red-Needs a lot of work

Standard	Start	1	2	3	4	Review	Finish
R.1							
R.2							
R.3
